Manitoba Statistics on Older Adults

Canadian research suggests that between 4 and 10% of older adults experience one or more forms of abuse or neglect at some point in their later years (approximately 6,000 to 15,000 older Manitobans). It is likely a much larger problem as elder abuse often does not come to the attention of those who can help.

A & O: Support Services for Older Adults

A & O: Support Services for Older Adults is a social service agency that offers life enhancing programs and services to older adults. A & O's programs and services support and enhance the physical, intellectual, emotional, social and spiritual lives of older persons and actively promote participation in all aspects of community life.

What is Elder Abuse?

- Elder abuse is any action or lack of action by someone in a position of trust that harms the health or well-being of an older person.
- Abuse can be physical, psychological, or sexual. It can also exist in the form of neglect and financial exploitation.

Why is Elder Abuse Not Reported?

- Fear
- Shame
- Not knowing where to go for help
- Family loyalty

What can I do if I'm worried about someone?

If you are concerned about the immediate safety of that person, call 911 or your local emergency number. If a person tells you they are being abused:

- Believe the person
- Listen to what they are saying to you
- Learn about the resources available to help
- Do not deny what is going on
- Encourage the person to seek help and assistance
- Do not confront the perpetrator yourself
- **Do not judge** the person. Tell them you care about them and offer support.
- **Understand** that making efforts to change an abusive relationship is extremely difficult.

Remember, if you or someone you know has been abused or is experiencing abuse, you are not alone – help is available.

Preventing Elder Abuse:

The following can help you stay safe:

- Ask friends to visit you often
- Participate in community activities
- Have your own telephone, and receive and send your own mail
- Arrange to have your pension cheques or other income deposited directly into your **own** bank account
- Get legal advice about planning for your future and legal documents you should have
- Keep accurate records, accounts and lists of property/assets available for review by someone you trust
- Review your Will periodically and do not make changes to it without careful consideration and/or discussion with a trusted family member or friend
- Give up control of your property or assets only when you decide you can't manage them
- Ask for help when you need it
- Discuss your plans with your attorney, physician or family members

When should I talk to a Lawyer?

Don't wait until it's too late...plan ahead! It is very important for all adults to plan for their future. One of the ways to do this is to ensure that your wishes are known even when you are no longer able to express them. Key documents to consider are:

- Enduring Power of Attorney
- Health Care Directive
- Will

You should consult with a lawyer before signing any legal documents. In the case of a Health Care Directive you should consider talking to a medical professional as well. Never sign anything that you don't understand or agree with!

When should I call the Public Trustee?

The Public Trustee is an office of last resort, which means they are only involved when required to because all other avenues have been exhausted. Most often the Public Trustee will be required to act on behalf of a person who is no longer capable of making financial or legal decisions. The Public Trustee provides other services as well.

Power of Attorney

Did you know?

- Must be in writing, signed and witnessed
- You must be legally competent at time of signing
- It allows the person you assign it to the ability to manage your financial affairs only
- It is not intended for medical or personal decisions
- It is no longer valid after your death
- It must be used to make decisions that are in your best interest, not anybody else

Prevent Elder Abuse Manitoba

Prevent Elder Abuse Manitoba (PEAM) is a central point of contact for information about elder abuse in our province. We partner with organizations, communities & individuals to raise awareness and develop tools & resources to support provincial and local initiatives. The Province of Manitoba provides funding to PEAM through the provincial Elder Abuse Strategy. For more information or to join the team visit www.peam.ca

Did you know?

4-10% 

Canadian research suggests that 4-10% of older adults are affected by abuse - 6,000 to 16,000 older Manitobans.

 **95%**

of calls to the provincial Seniors Abuse Support Line identify financial or psychological abuse as a concern.

It is commonly recognized that only one in five incidents of elder abuse is ever disclosed to someone in a position to help.

Well substantiated risk factors for abuse of older adults

include: living with someone else, dementia and social isolation.

Over 1/3 of the calls to the provincial Seniors Abuse Support Line identify an adult child as the alleged abuser.

Seniors Abuse Support Line

In Manitoba, the provincial Seniors Abuse Support Line provides information and referral 24 hours/day.
